Kubik
Room in room system

Kubik da solución a los nuevos conceptos que se están planteando en el diseño de las oficinas contemporáneas, ayudando a generar espacios de trabajo que estimulan la creatividad, favorece el trabajo en equipo y las reuniones entre distintos departamentos.

Kubik es un sistema “Room in Room” que permite configurar salas autoportantes, que no requieren para su montaje de ninguna conexión a los elementos estructurales que le rodean.

Kubik gives an answer to the new concepts that are put forward on the design of the contemporary offices. It helps creating working areas that stimulate creativity, improves team work and inter departmental meetings.

Kubik is a “Room in Room” system; it is completely freestanding, and does not need any connection to any structural element around.

Kubik apporte une solution aux nouveaux concepts qui arrivent dans la conception de bureaux contemporains, de manière à aider à créer des espaces de travail qui stimulent la créativité, encouragent le travail en équipe et les réunions entre différents départements.

Kubik est un système “Room in Room” qui permet configurer des salles autoportantes, sans avoir besoin d'aucun connexion aux éléments structuraux qui l'entourent pour son montage.
